

Glen Eden Primary Team Newsletter, Term 4, 2019

Nau mai, haere mai! Welcome to Term 4!

Curriculum Focus Area

This term, the whole school will continue to focus on creativity in both The Arts and Technology with a minor focus on giving back. How this looks will vary across classes and levels throughout the school.

As the weather gets warmer, it's important for students to wear sunhats and sunscreen at school.

Kiwi Team Information

Maths Focus

We begin the term by focussing on geometry and measurement and students will be learning about the position and orientation of things in relation to themselves. Students will then focus on algebra and look at patterns and sequences. For the rest of the term, students will be working in groups on place value, multiplication, addition and subtraction with lots of counting and number work.

Kiwi Team trip to Kiwi Valley Farm

We are excited to be taking the Kiwi classes to Kiwi Valley Farm in Henderson Valley on November 13th where the students will learn about farming and animals, feed and pet some animals in their paddocks, have a pony and tractor ride and explore their maze. This is a visit specifically designed for young children to participate in and will be a great day. Further information including the cost will come home closer to the trip.

Junior School Athletics Day

We are having our Junior School Athletics Day on November 21st where we have running races in the morning and then fun field events until lunch time. Whānau are very welcome to come and support us.
