It's my first time making icing like this. When you pull it out of the oven, put the chocolate pieces on top

Wait for it to melt

When it's melted, you put the walnuts on it

OGS ARK

Setting: The setting of the story is based in olden times after god separated the earth from the sky. The ark came into the world.

Important Event: I believe the most important event in the story is when Og the giant met Noah because that was the turning point for Og. In some way, he only did he help get all the animals on to Noah's ark, he also rewarded with a big enough palace and a iron bed big enough for him and all the animals to sleep in.

Character: The person in the story that I would want to meet will be Og.

Questions I would ask Og:

- How was your sleep tonight, was it nice or not?
- How was your day today did it go well for you?
- How are the animals that you look after are they doing alright?
- How were you feeling when you had no bed to sleep in?
